

STATUS REPORT FOR SAIMER NIEVES

WEEK 1

This week I worked on:

- (1) Thinking of a capstone project idea both achievable and beneficial towards users
- (2) Communicated with my partner and discussed our ideas and compromised on creating the Origin Mall Design project
- (3) I completed the proposal with my teammate stating the purpose, design and software for our program

In the upcoming week I plan to:

- (1) Begin researching coding ideas to design and code certain features in our project
- (2) see if the main page gets started with a layout of the mall
- (3) work with mall layout until its solid

Impediments/roadblocks

- (1) I would need to research some new coding topics to learn how to make mall layout
- (2) we must know how many tables we'll need and how to link them to each other.
